**Work program of the discipline
ECONOMY**

Specialty: 31.05.01 General Medicine

Level of higher education: specialist

Qualification: physician

Yekaterinburg city
2025 year

The work program of the discipline "Economics" is drawn up in accordance with the requirements of the Federal State Educational Standard of Higher Education in the specialty 31.05.01 General Medicine (specialty level), approved by order of the Ministry of Science and Higher Education of the Russian Federation dated 12.08.2020 No. 988.

The program was compiled by a team of authors from the Department of History, Economics and Law of the Federal State Budgetary Educational Institution of Higher Education Ural State Medical University of the Ministry of Health of the Russian Federation, consisting of:

Candidate of Economic Sciences, Associate Professor L.A. Skorokhodova – Head of Department;

O.N. Ponomareva – Senior Lecturer of the Department

The program has been reviewed by:

PhD, Associate Professor E.V. Vlasova - Head of the Department of Philosophy, Bioethics and Cultural Studies, USMU

The work program was discussed and approved at the department meeting
“March 21, 2025 (Protocol No. 6).

The program was approved by the Methodological Commission of the specialty "General Medicine" on June 6, 2025 (protocol No. 7).

1. The purpose of studying the discipline

Students acquire the necessary amount of theoretical and practical knowledge, skills and practical abilities in economics, to develop economic culture in graduates, including financial literacy and the ability to make informed economic decisions in various areas of life, in accordance with the Federal State Educational Standard of Higher Education 3++, specialty 31.05.01 General Medicine.

2. Objectives of the discipline

1. developing students' knowledge of the basic concepts and theories describing the principles of the functioning of the economy, economic development and forms of state participation in the economy;

2. developing students' skills in analyzing and assessing the prospects for the development of the economy and economic processes based on objective information;

3. instilling in students the skills of independent work, the ability to make informed economic decisions in various areas of life; implementation of personal economic and financial planning;

4. developing students' motivation to maintain health and lead a healthy lifestyle.

3. The place of the discipline in the structure of the OOP

1. The discipline "Economics" is a mandatory part of Block 1 "Disciplines (modules)" of the OOP in the specialty 31.05.01 General Medicine (specialist level). It is studied: in the second year.

The study of economics involves acquiring such general educational skills and competencies that are aimed at developing economic knowledge, abilities and skills in the field of fundamental natural science training in economics.

2. Requirements for the initial knowledge of students starting to study the discipline "Economics".

When starting to study the discipline "Economics", the student must already have certain knowledge and skills:

- basic concepts of economic thought;
- understand the social significance of their future profession, perform professional tasks in accordance with moral standards and professional ethics;
- think creatively and creatively solve professional problems, show initiative, including in risk situations, make optimal organizational and management decisions in everyday activities and non-standard situations, and bear responsibility for them;
- skills of logical thinking, analysis, systematization, generalization, critical understanding of information, setting research problems and choosing ways to solve them.

3. In the process of studying the discipline "Economics", students must use their knowledge in the field of humanitarian disciplines studied within the framework of the school curriculum.

The discipline "Economics" is a precursor to disciplines, the study of which requires an understanding of the economic justification of ongoing processes.

4. Requirements for the results of mastering the discipline

This work program is aimed at acquiring universal competencies, knowledge, skills and abilities:

Category (group) of universal competencies	Code and name of the universal competence	Code and name of the indicator of achievement of universal competence, which is formed by the discipline

7. Approximate topics (if any):

7.1. Coursework

Not included in the curriculum

7.2. Educational, research, creative works

Not provided curriculum

7.3. Abstracts

Not included in the curriculum

8. Resource provision

The department has human resources that guarantee the quality of specialist training in accordance with the requirements of the Federal State Educational Standard of Higher Education in the specialty 31.05.01 General Medicine. Provided that the student studies conscientiously, he/she will acquire the knowledge, skills and abilities necessary for the qualification level required of a graduate in the specialty.

8.1. Educational technologies

Students complete educational tasks both individually and in small groups (2-4 people) with subsequent presentation of the results of the work and their discussion. Students independently work with Internet resources, solve situational problems.

Independent work with literature is provided.

The educational process uses practical classes, situational tasks and test control tasks for practical classes.

Electronic information and educational environment: educational, educational and methodological information is presented on the educational portal <http://edu.usma.ru>, all students have access to electronic educational resources (electronic catalog and electronic library of the university, electronic library system "Student Consultant").

8.2. Material and technical equipment

The classrooms are equipped with desks, work tables, chairs, a chalk board, multimedia equipment, a hanging screen, computers, and a projector.

Computer equipment with Internet connection and access to the electronic information and educational environment of the university

The complete teaching and methodological complex for the discipline is presented on the educational portal edu.usma.ru with individual access for all students in the OOP - General Medicine.

8.3. List of licensed software

8.3.1 System software

8.3.1.1. Server software:

- VMwarevCenterServer 5 Standard , license term: unlimited; VMwarevSphere 5 EnterprisePlus , license term: unlimited, agreement No. 31502097527 dated 03/30/2015, Krona-KS LLC;

- Windows Server 2003 Standard No. 41964863 dated 03/26/2007, No. 43143029 dated 12/05/2007, license validity period: unlimited;

- Windows Server 2019 Standard (32 cores), license agreement No. V9657951 dated 08/25/2020, license validity period: perpetual, Microsoft Corporation;

- ExchangeServer 2007 Standard (license No. 42348959 dated 06/26/2007, license validity period: unlimited);

- SQL ServerStandard 2005 (license No. 42348959 dated 06/26/2007, license validity period: unlimited);

- CiscoCallManager v10.5 (agreement No. 31401301256 dated 07/22/2014, license validity period: indefinite), Mikrotest LLC;

- Ideco UTM Enterprise Security Gateway Edition (license no. 109907 dated November 24, 2020, license validity period: indefinite), IDECO LLC;

Kaspersky antivirus software Endpoint Security for business (1100 users) (license No. 2B1E-230526-081804-1-9021 dated 05/25/2023, license valid until 06/11/2025, Exact LLC).

8.3.1.2. Personal computer operating systems:

- Windows 7 Pro (OpenLicense No. 45853269 from 02.09.2009, No. 46759882 from 04.09.2010, No. 46962403 from 05.28.2010, No. 47369625 from 09.03.2010, No. 47849166 from 12/21/2010, No. 47849165 from 12/21/2010, No. 48457468 from 05/04/2011, No. 49117440 from 10/03/2011, No. 49155878 from 12.10.2011, No. 49472004 dated 20.12.2011), license validity period: indefinitely);

- Windows7 Starter (OpenLicense No. 46759882 from 04/09/2010, No. 49155878 from 10/12/2011, No. 49472004 from 12/20/2011, license validity period: indefinite);

- Windows 8 (OpenLicense No. 61834837 dated 04/09/2010, license validity period: indefinite);

- Windows 8 Pro (OpenLicense No. 61834837 dated 04/24/2013, No. 61293953 dated 12/17/2012, license validity period: indefinitely).

8.3.2. Application software

8.3.2.1. Office programs

- OfficeStandard 2007 (OpenLicense No. 43219400 dated 12/18/2007, No. 46299303 dated 12/21/2009, license validity period: unlimited);

- OfficeProfessionalPlus 2007 (OpenLicense No. 42348959 dated 06/26/2007, No. 46299303 dated 12/21/2009, license validity period: unlimited);

- OfficeStandard 2013 (OpenLicense No. 61293953 dated 12/17/2012, No. 49472004 dated 12/20/2011, No. 61822987 dated 04/22/2013, No. 64496996 dated 12/12/2014, No. 64914420 dated 03/16/2015, license validity period: indefinite).

8.3.2.2. Data processing programs, information systems

- Software " TANDEM.University " (license certificate No. UGMU/21 dated 12/22/2021, license validity period: indefinite), Tandem IS LLC;

iSpring Software Suite (agreement No. 620L dated July 23, 2024, license validity period: 12 months, Softline Projects LLC).
