

## **Work Instructions**

Examination work consists of two parts, including 18 tasks.

Part 1 contains 15 exercises with a short answer. Part 2 contains 3 tasks with detailed answer.

1.0 hours are allocated for the examination work in biology (60 minutes)

The answers to the tasks of Part 1 are a sequence of numbers, a word or collocation.

The tasks of part 2 (16-18) require a complete answer (give an explanation, description or rationale; to express and argue their own opinion).

The points you received for completed tasks are summed up. Try to complete as many tasks as possible and score the most points.

**We wish you success !!!**
